

# King's High Warwick is Top of the Class

King's High Warwick is celebrating a host of national award nominations, and a glowing report from one of the UK's leading school guides.

Tatler Schools Guide 2022 declares: 'King's High is a school of the future.' The Guide describes how 'Our seasoned researcher saw pupils cloning cabbages in Biology, enacting exciting scenes from literature in English, and cooking up a storm in an enormous room full of ovens that was as far from old-fashioned cooking classes as one could possibly imagine'.

Tatler Schools Guide 2022 goes on to praise Head Master, Dr Burley: 'Parents rave about new Head Stephen Burley, describing him as a warm, calm, kind and inspiring leader who genuinely understands the specific needs of both pupils and parents.'

'His sterling senior leadership team includes a Director of Digitally Enabled Learning and a Director of Co-curricular Activities. Said activities – from Drama, Music and Equine Therapy to CCF and Clay Pigeon Shooting – are undertaken with the boys from Warwick School. There is a shared Sixth Form space too, with a careers hub and an uber-cool roof garden to hang out in.'

The Guide concludes: 'A recent visitor was 'blown away' by the confidence and polish of the girls, who have a 'cracking sense of humour' without a trace of arrogance, despite achieving stellar results and moving on to top universities. But, as the proud Head explains, far from being identikit high achievers, these girls are united by 'their commitment to making a positive impact on the world around them.'

In addition, King's High has been shortlisted for Senior School of the Year in the prestigious Independent Schools Association Awards (ISA). Also shortlisted for Excellence and Innovation in the Performing Arts, King's High was highly commended for Outstanding Sport and Excellence and Innovation in Fine Arts. This follows on from the school recently being shortlisted for UK School of the Year in

Performing Arts (Music and Drama) in the Independent School Parent Awards.

Dr Burley says: 'We are hugely proud of these accolades, and delighted that our wonderful pupils and staff are being recognised nationally. We are equally proud that we are educating the Changemakers of the future – young women who will go out into the world and make a positive difference, inspired by strong values and a powerful sense of social responsibility.'
